Dear Sir/Madam,

25 This is an Information Disclosure Statement in

material to patentability under 37 CFR §1.56. The
applicants wish to make of record the documents listed
on the accompanying form PTO/SB/08.30 Since this IDS is filed before the mailing date of the
first Office action, consideration of the information
disclosure statement is hereby requested according to 37 CFR

5 than three months prior to the filing of the information disclosure statement.

The first cited document (CN 1015495B) provides a data processing system using a storage location conversion mode
10 and method thereof. In a system having a plurality of storage devices (4,5,6), during an interrupt subroutine, the data processing apparatus uses a storage location conversion mode to selectively store a storage conversion control program in a same address area for each of the plurality of storage devices.
15 After finishing processing the interrupt subroutine, the storage location conversion program is read from a second storage location. The storage location conversion formula of the first storage location is transferred from the second storage location to the first storage location. Control is
20 then returned to the original processing procedure according to the storage location conversion formula extracted from the first storage location.

According to the requirement set forth in 37 CFR §1.98,
25 a copy of the cited Chinese reference and its English language abstract is included to fulfill the concise explanation requirement.

It is respectfully requested that the examiner can
